Decontamination Pad Acceptance Criteria

Sue G. Stiger, Director
Environmental Restoration Management
EG&G Rocky Flats, Inc.

The Rocky Flats Field Office (RFFO) is requesting that EG&G provide RFFO the guidance used in deciding what will or will not be accepted at the decontamination pads currently being operated by EG&G Environmental Operations Management. This request is driven by concern over the expected increase in the number of sources of items to be decontaminated resulting from accelerated cleanup actions. In order to keep the risk of regulatory enforcement action low, we are requesting that, if criteria do not exist, then criteria be developed for accepting items for decontamination at the pads in question.

Please direct any questions you may have to Brandon Williamson at extension 5276.

Jessie Roberson
Assistant Manager for
Environmental Restoration
